

Special Council Meeting
August 24, 2010
City Hall; 6:30p.m.

Unapproved Minutes

Meeting was called to order at 6:30 by Mayor Seneca, with Council Meador, Council Lockaby, Council Smith and Council Lloyd present. Council Adler arrived at 6:35.

Council Meador began his presentation on the streets. He said the town will be done in phases, starting with the S.E. corner. Jim and Julie had done research and found that there is a total of 35 culverts that need replaced out of the 87 in that section. The goal will be to get positive drainage going and do sub base repairs as needed. Council Meador said there is alligator cracking on several roads and some are very bad. He thought that chip and seal on the better streets would help with upkeep.

There were estimates from Killough Const. for ditch work and base repair, etc. Bush Gardens had also given some estimates on reseeding areas. Some would have to be hand tilled and seeded and covered with hay or straw mulch. Areas that are too steep would have to be hydro seeded. Harbour Const. sent an estimate as well for chip and seal.

No motion was made but the Mayor and Council made the decision to have Jim go ahead and order the culverts that were needed. Everyone agreed that this needed to be done quickly so that work can be started soon.

At 7:03, Council Smith made the motion to go into executive session for 30 minutes for the purpose of custodial interviews of non elected personnel. Council Lockaby made a second and it passed by roll call 5-0.

At 7:33, Council was back in session. A motion was made by Council Meador to adjourn the meeting. Council Adler made a second and it passed by roll call 5-0.
